Your Message. Your Way. When You Need It.

Main Manufacturing Facility,
Manlius, New York

Since 1965, Voss Signs has produced a broad range of stock and custom signs using a wide variety of materials and processes. Our signs are created in a 60,000-square-foot facility in upstate New York using state-of-the-art technology and equipment.

HOURS

Office Hours: Mon–Fri: 8:00–4:30 EST

Walk-in Hours: Mon–Fri: 8:00–4:30 EST

sales@VossSigns.com

PAYMENT METHOD Payment required with order. Make checks payable to Voss Signs, LLC, PO Box 553, Manlius, NY 13104 (Fed. ID. No. 16-1553963). Open account available for commercial customers with first time credit check. Please add a \$25.00 flat shipping and handling fee. There will be a \$25.00 charge for returned checks.

SALES TAX NY State residents add appropriate sales tax.

SHIPPING We charge a flat rate \$25.00 for ground shipping on all signs in this catalog to the 48 contiguous states, except where indicated. Please include complete delivery instructions or directions. All other shipping methods are available at additional cost.

RETURNS Stock items may be subject to a restocking fee. Please call before returning any stock items. Custom-made and personalized signs are not returnable.

PRICING We try our very best to maintain our prices but all prices are subject to change if deemed necessary.

sales@VossSigns.com

Although Voss Signs stocks over 250,000 signs at any given time, custom signs are our specialty. Our graphic designers are able to create dynamic signs to your specifications. Our experienced sales department can assist you with your custom needs and provide you with sample signs demonstrating our capabilities and materials. Voss Signs, LLC is committed to providing the outdoor sign market with unsurpassed quality, pricing and service. We are proud to support many national, regional and state organizations through memberships. We appreciate your continued support and are happy to bring you our latest catalog featuring many new items.

Custom Signs

Our graphic designers are able to create signs to your exact specifications with professionalism and minimal response time. To ensure your complete satisfaction before the job is printed, a proof of every custom order is provided by either fax, email or standard mail for your approval. We can accept your logos and artwork in a wide variety of vector and raster formats. Contact our art department at sales@VossSigns.com if you have specific questions or require assistance.

Screen Printing

Our screen printing process allows us to reproduce high quality artwork very accurately, using durable inks for long lasting outdoor exposure. We mix our own inks and can match any PMS number or color sample provided. Additional \$40.00 PMS matching fee.

Digital Printing

Full color digital printing gives us the flexibility to produce attention grabbing signs and displays from very small to very large at a reasonable cost, especially in lower quantities. Digital printing significantly reduces the production time, allowing us to meet short deadline requirements. The finished product is crisp, making it more suitable for shorter viewing distances. Although the outdoor life of this product is more limited than our screen printed products, we use the newest ink technology available, which offers outdoor life for 5 to 7 years.

MATERIALS

Our products are printed in house using state-of-the-art technology and equipment to produce the finest, most durable signs for long term outdoor use. We offer a wide variety of materials for your custom needs. See the list below for available materials and gauges.

PLASTIC High density polyethylene comes in gauges* from .024 to .125. Maximum UV inhibitors give our signs long term outdoor durability and colorfastness.

Common Uses: Posted Signs, Trail Signs, Special Event Signs

ALUMINUM Our .012 gauge* aluminum is available in infinite background colors and our .032 to .080 gauges* are available with white baked enamel finish. Special colors upon request.

SINTRA (PVC) BOARD Ideal for the application of our digitally printed vinyl material for highly rigid and impact resistant signage. Lightweight, expanded polyvinyl chloride has a closed cell structure with a low gloss, satin finished surface.

Common Uses: Interior Signage, POP Displays, Menu Boards.

CORRUGATED PLASTIC Made from white, 4mm thick material. Corrugated plastic is lined with flutes, that generally run vertically on the sign, to allow sign stakes to be inserted into them. This material is very durable and works well for outdoor use.

Common Uses: Yard Signs, Special Event Signs, Promotional Signs

LARGE FORMAT BANNERS Highly visible and durable for outdoor use. We offer full color, photo quality printing, on long lasting 13 oz. and 18 oz. banner material with a variety of finishing options.

SELF-ADHESIVE VINYL Flexible and versatile material. Engineer grade reflective sheeting, non-reflective sheeting, permanent and removable bumper sticker material, inside mount window decals and perforated vinyl are available.

Common Uses: Window and Wall Decals, Bumper Stickers, Vehicle Graphics

REFLECTIVE SHEETING Available in 3M AEG Reflective Series, High Intensity Reflective and Diamond Grade Reflective.

Common Uses: Traffic Signs, Trail Signs, Warning Signs

HIGH DENSITY URETHANE (HDU) An eco-friendly material that does not absorb moisture. High humidity, rain, snow and ice are repelled so your sign will not warp or crack, and the paint lasts longer and stays brighter.

Common Uses: Sandblasted Signs

DIBOND Aluminum composite material composed of two pre-painted sheets of .012 gauge aluminum bonded to a solid 3mm polyethylene core. This lightweight, durable material is ideal for outdoor applications.

Common Uses: Construction Site Signs, Business Front Signs, Exhibit Displays

MAGNETIC Available in .030 gauge with a white background and your choice of print colors.

Common Uses: Vehicle Magnets, Business Cards

ALUMALITE A corrugated plastic core with aluminum on both sides to provide rigidity and durability. It will not swell or corrode from the inside, which makes it a perfect choice for outdoor applications.

Common Uses: Outdoor Business Signs, Construction Site Signs, Wall Mounted Signs, Score Boards

POLYCARBONATE A 3/16" extremely durable material that lasts 10 years plus, outdoors, and is highly impact resistant.

Common Uses: Backlit Signs, Kiosk Signs

*Gauge is a term used to reference the decimal equivalent of an inch.

For example: .125 equals 1/8".

Wheeled carry bag included

Features

- Canopy measures 114" L x 82.5" H
- 15.5" valance around all sides of canopy
- Inside peak measures 131.5" H, able to be lowered to 121.5" H
- Tent frame weighs 38 lbs.
- Tent canopy weighs 4 lbs.
- Crease-free canopy
- User friendly collapsible aluminum frame, 2-person set-up
- Velcro® attaches canopy to tent frame
- Wheeled carry bag is included in this package

Tent Half Walls

- Half walls with custom printed images separate your booth from others and add extra space for your branding. They also create a clean, enclosed sales area for merchandise.
- Choose single-sided or double-sided half walls depending on your event needs. Double-sided half wall has a block-out fabric inserted between the panels to prevent visibility from one side to the other.
- Each of our half walls comes with a durable aluminum bar and 2 clamps, for easily attaching to your tent legs.

High Density Urethane (HDU)

3-Dimensional Sandblasted Signs can be made in many shapes, designs and color combinations. Available in single-sided or double-sided sign options.

Finishes: Smooth Surface, Simulated Wood Grain, Metallic Painting

Thicknesses: 1", 1 1/2" and 2". Anything over 2" will be custom bonded to reach your desired thickness.

The Advantages of HDU (HIGH DENSITY URETHANE)

At Voss Signs®, we strongly recommend using HDU material. HDU is an eco-friendly material that does not absorb moisture. This means that high humidity, rain, snow and ice are repelled so your sign won't warp or crack, and the paint lasts longer and stays brighter.

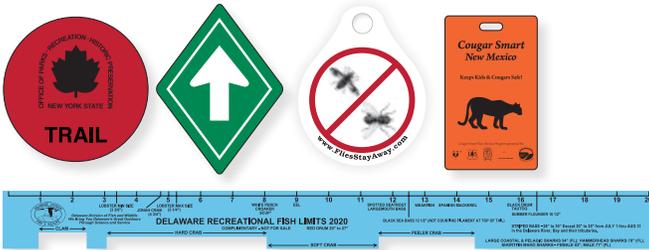

Please call for pricing.

Die Cut Signs

Choose from a selection of die cut templates or customize your sign to suit your needs. Voss Signs® can die cut rulers, tags, key chains and more.

Call for pricing.

Custom ADA Signs

Custom ADA compliant signs are available in high quality acrylic and are manufactured using **Grade 2 Raster Braille™**, which has a compliant dome shape for clarity and comfort.

Voss Signs® ADA Signs are fully compliant with the Americans With Disabilities Act.

Tactile lettering & legend raised 1/32" from the base material.

Volume discounts on ADA Signs available!

Imprinting

We can imprint your name and address with permanent black ink on all of the posted plastic and aluminum signs in this catalog following these guidelines:

- Lettering is in all capitals
- 45 characters per line, including spaces and punctuation
- Limit of two lines of text, abbreviate when possible

Imprint Cost: \$15.00 set-up fee, plus 5¢ per sign

Example: 100 signs: \$15.00 set-up, plus 5¢ per sign (\$5.00) = \$20.00 total

3/8" IMPRINT THIS SIZE TYPE

Letters for personalization are 3/8" high

12" x 12" Self-Supporting Premium Posted Signs

Signs come with 2 mounting holes & round corners, no backer board required. Imprints on 10-99 Premium Signs require a \$35.00 imprint charge. Free imprint (name and address) with orders of 100 or more. Our light gauge stock posted signs on pages 20–21 can be made into Premium 12" x 12". Available in orange, yellow and white plastic, or aluminum, with black print.

Aluminum Mounting Nails

3/8" HEAD X 1 1/2" SHANK

Aluminum nails prevent corrosion problems and rust marks that occur when steel nails are used. If the tree is ever harvested, saws will cut through aluminum nails easily, preventing harm to both the saw blade and sawyer.

To use, leave the nail a little short of all the way in, about 3/8" left to go, so that a few of the rings on the nail shank still show. This leaves room for the tree to grow, preventing the sign from being pushed off the nail and keeping the sign mounted longer. **Additional shipping on this item.**

Approximately 450 nails per lb.

1 lb.	\$7.81
2-9 lbs.	\$7.26
10 lbs.	\$6.99

Voss Signs® 30# & 60# Rubber Sign Bases

Bases provide a portable signage solution. Made from recycled tires, choose from 30# or 60# bases with a variety of options available. Ideal for: school grounds, parking lots, crosswalks, parades or anywhere portable outdoor signs are needed. These bases will withstand high winds and will not chip, crack or rust. The 5' tall PVC or 4' tall U-Channel posts easily attach to these portable bases. Bases are available with wheels for increased portability. All bases have a 1 1/2" post hole. Posts include pre-drilled holes and mounting hardware.

Voss Signs® Tree Identification Tags

Voss Signs® Tree Tags are printed on 4" x 6", medium (.070 gauge) tan plastic, with green print, 4 mounting holes and round corners. This series of descriptive tree identification signs includes as many as three common names, the scientific name, our staff artist's sketch of a typical leaf and a brief description of the tree as well as common uses of the wood. Individuals and organizations across the country are taking advantage of this unique product to help educate students and visitors to better appreciate their natural surroundings. Signs designed by artist Jackie Lawniczak.

Dual-Flex Ground-Driven Fiberglass Marker Post

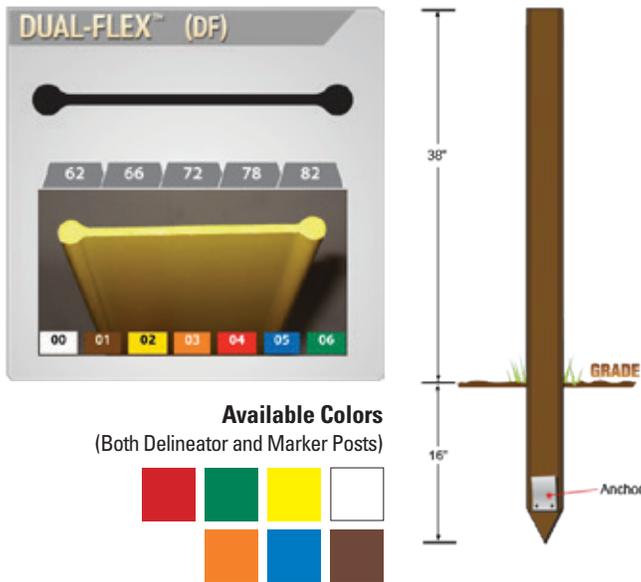

Dual-Flex is one of our most popular and versatile fiberglass marker posts. It is a cost effective solution for marking secondary routes, campsites or trails.

It can be used to display standard decals or reflective sheeting up to 3" wide on either side to increase visibility of the post or to show messages to users traveling in either direction.

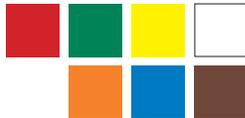

With its medium flexibility rating, it can support the use of snow poles or attaching a small 4x4 or 6x6 sign (using a compatible bracket).

Each post comes with the bottom end pre-cut into a "V-shape" to allow easier installation and is available in: White (-00), Brown (-01), Yellow (-02), Orange (-03), Red (-04), Blue (-05) and Green (-06).

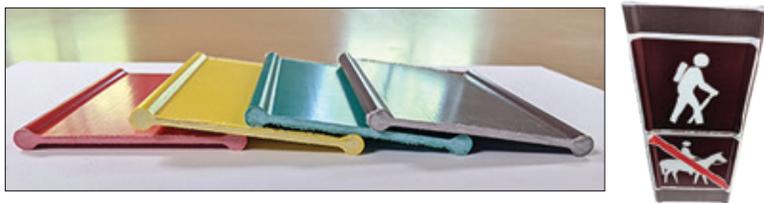

Marker posts are made from Fiberglass Reinforced Polyester (FRP); offer easy installation and are virtually maintenance-free.

Available Colors
(Both Delineator and Marker Posts)

Different lengths available. Please call for pricing.

Additional shipping on these items.

Prohibitive Signs

Red and black print, on .050 medium gauge white plastic background. Both 12"x12" and 6"x 6" come with 1/8" diameter mounting holes and round corners.

500+	\$1.21	\$2.00

OK to mix & match same size signs for quantity price breaks.

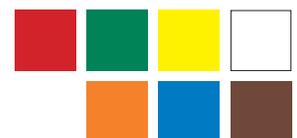

66" Delineator Posts

66" tall and 4" wide delineator posts are manufactured out of recycled and recyclable Engineering Thermoplastic Polymers, impervious to rot or rust. They will not splinter like fiberglass. Posts will bend on contact and spring back to original shape. The color pigments are blended throughout to resist discoloration due to UV exposure and to provide a long outdoor life. Decals can be applied directly to post, and small signs can be easily attached with bolts or fasteners. Other lengths and colors available.

Call for pricing.

Available Colors
(Both Delineator and Marker Posts)

Stock Cone Toppers

These signs are specially die cut to attach securely to the top of the traffic cone. All designs are available in both sizes.

Hang Over Cones are more visible to vehicles.

Traffic Cones

Traffic Cones come in 3 sizes, have a wide body design and are made of fluorescent orange PVC.

Available Colors

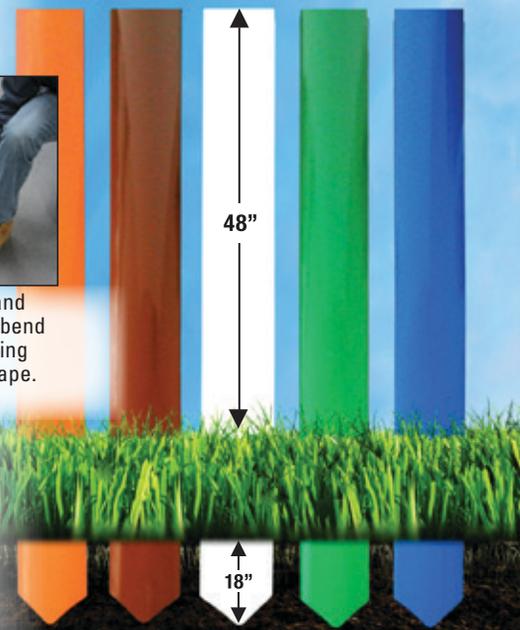

66" Delineator Posts

Our Delineator Posts are manufactured out of recycled and recyclable engineering thermo-plastic polymers, impervious to rot or rust. They will not splinter like fiber glass, become brittle in the cold, or soften in the heat. Posts will bend on contact and spring back to original shape. The 4" x 4" stock decals, shown on **page 26**, can be applied directly to the posts. Larger 8" x 8" signs can be attached with bolts or fasteners if greater visibility is required. Posts are 4" wide and 66" tall.

For more information on delineators and other post options, call one of our friendly sales associates today!

Posts are flexible and durable enough to bend on contact and spring back to original shape.

Post Driver \$270⁵⁵ each

For use with or without steel anchor. Remove top plate for steel anchor application.

Additional shipping on Delineator Posts, Post Drivers & Hardware.

Steel U-Channel Hard Soil Anchor Call for pricing.

Plastic Soft Soil Anchor Call for pricing.

Dual-Flex Ground-Driven Fiberglass Marker Post

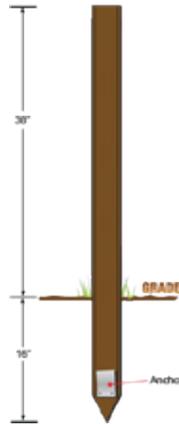

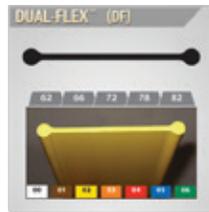

Dual-Flex is one of our most popular and versatile fiberglass marker posts. It is a cost effective solution for marking secondary routes, campsites or trails.

It can be used to display standard decals or reflective sheeting up to 3" wide on either side to increase visibility of the post or to show messages to users traveling in either direction.

With its medium flexibility rating, it can support the use of snow poles or attaching a small 4x4 or 6x6 sign (using a compatible bracket).

Each post comes with the bottom end pre-cut into a "V-shape" to allow easier installation and is available in: White (-00), Brown (-01), Yellow (-02), Orange (-03), Red (-04), Blue (-05) and Green (-06).

Available Colors

Sign Mounting Hardware

Additional shipping on these items.

Bolt Kit \$1⁴⁵ per Kit

This Bolt Kit (Item# 2 FBK) includes two 1½" x ⅝" bolts, two nuts & four washers and is perfect for mounting your signs to U-Channel posts or to chain link fences with a Fence Back Plate (see below).

Fence Back Plates

Our Fence Back Plates are made out of .063 gauge aluminum. Back Plates are available in 3" x 24", 3" x 18" and 3" x 12". Used to attach signs to chain link fences.
